

CleanSpray

TECHNOLOGIES

CLEANER SPACES, CONTINUOUS PROTECTION.

55 GALLON SYSTEM (UP TO 100 NOZZLES)

CleanSpray is a time set fogging system (patent pending) combined with plant-based disinfectant that allows a proven and consistent method for sanitizing and disinfecting churches, office buildings, or any other large area in need of thorough cleaning and continuous protection.

- CUSTOMIZED INSTALLATION •
- USES 110 VOLT POWER SOURCE •
- COVERS UP TO 22,000 SQFT, BASED ON BUILDING DESIGN •

The *CleanSpray* (by Bioesque) solution is a plant-based antimicrobial that can help fight off harmful bacteria and viruses in both a natural and effective way. Historically used as a medicinal therapy for throat and skin infections, it is a safer alternative to the harsh chemicals used in traditional cleaning methods, even safe enough to be used in food preparation areas.*

- PROTECTS AGAINST BACTERIA (MRSA), FUNGI, MOLDS •
AND VIRUSES (ATHLETE'S FOOT, SARS COVID-19, AND INFLUENZA)
- SAFE FOR FOOD PREP AREAS •
- LABORATORY TESTED •
